Long Term Contracts

Funding Principles
The purpose of this fact sheet is to provide advice to organisations funded under the *SkillingQueenslanders for Work* (SQW) initiative regarding long term contracts (LTCs).

When an organisation is approved for funding for a SQW project, a Services Agreement for up to 12 months (based on confirmed project delivery dates) is issued by the Department of Employment, Small Business and Training (DESBT).

Each funding round, a number of organisations may be offered to extend the contract period based on recommendations by the Regional Priority Jobs Committees. The offer will be made by DESBT at the time of notification of funding approval.

Offering LTCs will not be an automatic process but based on a targeted strategy to reward organisations with a proven capacity to continuously deliver successful projects. DESBT also needs to safeguard budget availability in future funding rounds to respond to state-wide and local emergent needs or government priorities.

LTCs are subject to annual performance reviews undertaken by DESBT.

Any offer by DESBT will be subject to budget availability and based on a number of factors as outlined below, rather than an application process.

Benefits
There are a number of benefits to DESBT and organisations in extending Services Agreements by a further 12 months.

For CBOs
- improves ability to continue to assist disadvantaged groups to gain skills, qualifications and employment
- provides an opportunity to implement continuous improvement strategies
- achieves economies in project delivery through use of a ‘tried and tested’ project model
- provides an opportunity for an ongoing presence in the local community
- addresses local skills shortages
- addresses supply issues in thin markets i.e. limited availability of organisations to deliver SQW projects in an identified location.

For DESBT
- improved capacity to retain the services of successful SQW providers
- longer term assistance strategies for disadvantaged groups in identified locations
- improved ability to achieve participation targets
- enhanced budget management and regional planning.

Factors to be considered in awarding a long term contract
Monitoring an organisation’s performance is a critical factor in the decision to extend a Services Agreement by an additional 12 months.

The extension of a Services Agreement will be at the discretion of DESBT and based on a number of factors, including:
- demonstrated capacity to deliver SQW projects
- key performance indicators have been consistently met and/or exceeded
• strong evidence of ongoing demand for the same services in the specific locality or region
• ongoing capacity to provide assistance to niche cohorts ensuring equity of access
• the capacity of the organisation to continue to deliver the project for a further 12 months
• compliance with Services Agreement conditions, including adherence to reporting requirements
• the project will continue to address ongoing identified regional priorities and local industry needs.

**Timing**

A review of an organisation’s performance will occur approximately nine months after a LTC project's commencement to allow sufficient time for a decision to be made regarding a contract extension.

Organisations selected for a contract extension will be notified by DESBT.

**Approval**

Approval by DESBT for a long term contract will be subject to a satisfactory performance review of the organisation and regional priorities for the same qualification, delivered to the same target group in a similar location.

DESBT may direct an organisation to change a project scope based on emerging priorities or needs or in response to a natural disaster.

Any changes to a project’s specification will be subject to negotiation and approval of changes for a long term contract is not guaranteed.

The availability of long term contracts under SQW was implemented by DESBT in 2018-19. The decision is not retrospective and offers will not be made on existing contracts.

Without limitation, DESBT may, in its sole discretion enter into long term contracts, discontinue long term contract arrangements or not enter into long term contracts.
