

Employer resource assessment – Electrical industry apprentices [UEE and UET qualifications only except UEE30811/UEE30820. Refer to ATF-013(ELEC-A)]

TO BE COMPLETED AND RETAINED BY THE SUPERVISING REGISTERED TRAINING ORGANISATION FOR AUDIT PURPOSES.

This form is made available to assist a supervising registered training organisation (SRTO) to comply with its obligations under the *Further Education and Training Act 2014* (FET Act) and the Skills Assure supplier (SAS) agreement.

Apprenticeships are pathways to obtain a qualification or statement of attainment by completing employment based training with an employer. It is essential the employment arrangements, including facilities, range of work and supervision, support the apprenticeship outcome. The SRTO plays an integral role in assessing an employer's capacity to provide the facilities, range of work and supervision when the SRTO prepares the training plan required for the apprenticeship.

The Electrical Safety Office (ESO) has developed a resource [Supervising electrical apprentices](#). This resource details the minimum requirements for the supervision of electrical apprentices in Queensland.

Before the Department of Employment, Small Business and Training (DESBT) can register a training contract for an apprenticeship or traineeship, Section 17(5)(f)(i & ii) of the FET Act requires a registered training organisation (RTO) to accept the nomination to become the SRTO. It is a requirement for the SRTO to prepare a training plan and complete an employer resource assessment (ERA). The ERA is an approved form under Section 66A and will assist the SRTO in determining the employer's capacity to provide or arrange to provide the facilities, range of work and supervision required under the training plan. Section 74 of the FET Act requires the SRTO to take all reasonable steps to ensure the training plan is signed within three months of the start of the apprenticeship or traineeship, or within 28 days of a change of SRTO or permanent transfer. The ERA must be reviewed at intervals of no greater than three months. This aligns with the legislative requirement to review a training record. Changes to the training plan and/or the commencement of additional apprentices in the workplace will require the SRTO to review the ERA and retain evidence of the review.

If the employer is unable to provide, or arrange to provide, the training resources necessary to achieve the outcomes of the training plan, and is unwilling/unable to negotiate alternative arrangements, the SRTO **must not commit** to the training plan and **must immediately** advise the employer, the Australian Apprenticeship Support Network (AASN) provider and DESBT.

To complete an electrical apprenticeship, an apprentice must sit a capstone test. To be eligible to sit a capstone test the apprentice must have demonstrated the required workplace experience in each of the prerequisite competencies. The SRTO must ensure the employer is capable of providing the workplace experience adequate to this requirement.

Where the employer is a GTO or PEO

In the case of a group training organisation (GTO) or principal employer organisation (PEO), the SRTO is required to complete an ERA of the first host employer's workplace. For permanent transfers where the new employer is a GTO/PEO, an ERA will be required for the first host employer. It is not a requirement to review the ERA at three monthly intervals for GTO/PEO contracts.
