

ALEXANDRA HILLS TAFE NURSING TRAINING

PROJECT VALUES

Revitalise the existing TAFE's training facilities to better represent a modern clinical space

Create training spaces that simulate a contemporary clinical workplace setting

Foster users' sense of belonging, security and safety by designing welcoming and inviting places for people

Improve wellbeing and cognitive performance of users by introducing biophillic design principles

Incorporate a consistent design strategy as other TAFE Queensland health training facilities

Support flexibility and adaptability to allow for different uses as required over time
