

COVID-19 visitor information

We are working with Queensland Health to stop the spread of COVID-19 at the youth detention centres.

We want young people, staff and others to be safe.

We are doing this to stop the spread of COVID-19:

- COVID-19 health checks and vaccinations for young people

- COVID-19 vaccinations for all staff

- increased cleaning

- increased use of hand sanitisers

- wearing masks (highly recommended if you are inside and not able to socially distance)

- extra staff training

Contact your child's caseworker if you have any concerns.

Visiting a youth detention centre

We understand young people still need to connect with their families and friends while in a youth detention centre. Staff will help you to stay in contact with them.

You **do not need** to be vaccinated against COVID-19 to visit a youth detention centre.

Face masks are recommended in inside areas if you can't socially distance from other people.

You should not enter if you have:

- had contact with a confirmed case of COVID-19 in the past 14 days

- a fever or symptoms of COVID-19
- tested positive to COVID-19 in the past 7 days

Please contact the youth detention centre if you need more information.

Stay home if you are sick

Wash your hands regularly

Cover your coughs and sneezes

Keep 1.5 metres away from others

Avoid touching your face

Get tested if you have symptoms
