Overview and objectives

The Higher Level Skills program provides eligible individuals with access to a subsidised training place in selected Australian Qualifications Framework (AQF) certificate IV level or above qualifications and priority skill sets, with a pre-approved registered training organisation (RTO) of their choice — otherwise known as a Skills Assure Supplier (SAS).

The principal aim is to help individuals gain the higher-level skills required to secure employment or career advancement in a priority industry or transition to university to continue their studies. The Higher Level Skills program also provides eligible employers or industry with the capacity to address current workforce development needs that are adversely impacting on productivity, where individual employees meet the program’s eligibility requirements.

Foundation skills training (i.e. language literacy and numeracy training) may also be subsidised in certain circumstances, based on an individual’s learning, skilling or support needs, and in accordance with the Certificate 3 Guarantee Program Policy 2019-20 and the SAS Policy 2019-20.

While it is primarily industry’s role to train its workforce, there is a role for government to invest in training that meets emerging industry needs if it will benefit Queensland’s economy and support industry to boost productivity.

Who is eligible to receive training?

To be eligible for the Higher Level Skills program, individuals must:

- be aged 15 years or over;
- be no longer at school;
- permanently reside in Queensland;
- be an Australian citizen, Australian permanent resident (includes humanitarian entrant), temporary resident with the necessary visa and work permits on the pathway to permanent residency, or a New Zealand citizen; and
- not hold, and not be enrolled in, a certificate IV or higher-level qualification, not including qualifications completed at school and foundation skills training.

In addition to the standard eligibility requirements, specific restrictions and/or exemptions may apply to participation in certain subsidised qualifications. Any additional eligibility requirements will be based on industry advice or requirements under the relevant national training package and will be detailed in the Priority Skills List.

Other priority students

The Queensland Government may operate other cohort-specific programs or initiatives where participants will access their training through the Higher Level Skills program.

SAS must ensure these students are accessing Higher Level Skills program funding in accordance with the rules and any exemptions prescribed in the relevant initiative’s guidelines.

How can employers participate?

For the program to achieve the desired outcomes for government and industry, participating employers would be expected to:

- undertake workforce development planning and identify skills needs and training requirements;
- determine the qualifications or skill sets that match their identified skills needs;
- identify if these qualifications or skill sets are
subsidised under the program, and how many employees require the training and meet the program’s eligibility criteria;

• select a SAS that can best meet their training needs based on price, delivery mode and location, trainer experience, resource requirements or other identified needs;

• support eligible employees to participate in the training and achieve the desired outcome; and

• make a co-contribution towards training costs, which may include SAS fees, wages, supervisors, trainers or facilities.

What training is available?

Under the Higher Level Skills program, the Queensland Government provides a subsidy for selected certificate IV level, diploma and advanced diploma qualifications aligned to critical occupations for industry and the economy.

Subsidised Higher Level Skills qualifications are listed on the Priority Skills List.

Priority skill sets

The government recognises that sometimes a full qualification is not required to address the skills needed for a critical occupation in the workplace.

In some instances, addressing skills needs may only require training in a specific skill set to increase the productivity and/or safety within the workforce, while still providing transferable or portable skills within the industry.

Eligibility for accessing training in a priority skills set is the same as the standard eligibility requirements for the Higher Level Skills program.

For the majority of priority skill sets, specific restrictions and/or exemptions will be included on the Priority Skills List to identify the students targeted by industry.

Skill sets that align with statutory or licensing requirements will generally not be funded under the program as industry and individuals are primarily responsible for achieving these outcomes.

Subsidised priority skill sets subsidised under the Higher Level Skills program are listed on the Priority Skills List.

Which RTOs can apply to deliver subsidised training?

RTOs must be pre-approved by the department as a SAS for the Higher Level Skills program to deliver training and assessment services in Queensland.

For information on the SAS application and approval process, see the SAS application fact sheet.

For information on the terms and conditions of funding, see the SAS Policy and SAS Agreement.

What level of subsidy is available?

The Higher Level Skills program will provide a government subsidy towards the training cost for eligible students undertaking a subsidised certificate IV, diploma level or advanced diploma qualification or priority skill set.

The size of the government subsidy will vary for each qualification (or skill set) based on the relative priority of the occupation aligned to the qualification, and the indicative value of the qualification (or skill set) based on relative length and complexity of training delivery.

The government will pay a higher concessional subsidy to encourage and support participation by disadvantaged students.

Concessional student status applies when:

(a) the student holds a Health Care or Pensioner Concession Card issued under Commonwealth law, or is the partner or a dependant of a person who holds a Health Care or Pensioner Concession Card and is named on the card;

(b) the student provides the SAS with an official form under Commonwealth law confirming that the student, his or her partner, or the person of whom the student is a dependant, is entitled to concessions under a Health Care or Pensioner Concession Card;

(c) the student is Aboriginal or Torres Strait Islander;

(d) the student has a disability; or

(e) the student is an adult prisoner.

For concessional status, it is the responsibility of the SAS to verify at enrolment and hold evidence of a student’s eligibility.

Loadings will also be paid to SAS to encourage delivery in country and remote areas in Queensland, and in Cape York and the Torres Strait. Locations attracting the loading, along with the corresponding loading amounts, can be found in the Localities and Location Loadings List.

What is a co-contribution fee?

A contribution to the cost of training and assessment services — called a co-contribution fee — must be made by students undertaking a certificate IV level and above qualification or priority skill set (see the SAS
Policy, Appendix 1 and definition in Appendix 7).

Given the increased benefits that students and industry accrue from higher-level training, there is an expectation of higher levels of co-contribution under the Higher Level Skills program.

The fee may be paid on behalf of the student by a third party unrelated to the SAS, but cannot be paid or waived by the SAS (whether directly or indirectly), unless approved in writing by the department. The fee amount is a decision for the SAS.

What can students expect from a SAS?

Individuals need access to a range of information to ensure they make an informed choice about a subsidised training place under the Higher Level Skills program.

To support this objective, each SAS must:

- inform prospective students they will no longer be eligible for a government subsidised training place under the Higher Level Skills program once they complete one certificate IV level or higher qualification;
- disclose upfront to prospective students and clearly publish on its website, the co-contribution fee for concessional and non-concessional students for each qualification it is approved to deliver under the program. The fee must represent the total cost to the student to enrol, undertake training and be awarded the qualification. It is not permissible to offer or publish fee-free training;
- provide prospective students, prior to enrolling, with its refund policy outlining what the student is entitled to (full or part refunds);
- direct each student to the department’s Higher Level Skills student fact sheet; and
- supply each student with a training fact sheet or written summary information for the qualification or skill set which includes:
  - a breakdown of all costs including how and when fees will be charged and collected at the unit of competency level;
  - training timelines, delivery mode, delivery location, and vocational or work placement when this is a mandatory component of the qualification under the training package;
  - support services available to assist students to complete training;
  - a requirement to complete a student training and employment survey within three months of completing or discontinuing the qualification or skill set (see the student training and employment survey fact sheet and SAS Policy, performance standard 5, for more information); and
  - the name and contact details of any third party delivering training or assessment services on behalf of the SAS.

What outcomes are expected?

As a result of participating in the Higher Level Skills program, the department expects students will:

- complete a higher-level qualification or approved skill set; and
- transition to the workforce, advance in their chosen career or transition to university to continue their studies.

In accordance with these objectives, the department will measure SAS performance against the following key performance indicators and benchmarks:

- Qualification / skill set completions — at a minimum achieve a qualification or skill set completion rate of 65 per cent of all students who commenced training; and
- Employment benefit — at a minimum achieve 55 per cent of all students who commenced training gaining an employment benefit as a result of the training. This means those unemployed before training gain a job, those employed before training receive some type of job-related benefit, and those successfully transitioning to university and enrolling in their chosen course.
