story_unsupported.html	8/11/2013 5:51 PM	HTML Document	1 KB

6. The resource should then open in your browser

7. If your web browser is unsupported, you will receive the following message. To access the resource, CLICK on the hyperlink in the message.

Important: There are known issues with accessing referred links and resources in Internet Explorer 8 or earlier versions. This problem does not appear to occur in later versions of Internet Explorer, or in other web browsers.

Notes

If a browser security notification pop-up message appears, CLICK on the message and 'ALLOW BLOCKED CONTENT', then CLICK 'YES' to the Security Warning message that follows. You will then need to RECLICK on the hyperlink in the web browser message to access the resource.

To view these resources, you will require Flash. If you don't already have this program you may download the latest version from the Adobe website.

Opening the resource in an Apple iPhone or iPad will direct you to download the free Articulate App to run the program successfully.

If you are loading the resources into an LMS refer to the LMS folder in the ZIP file once you have extracted all files.
